Dear Prof. Paez:

It is my pleasure to accept your manuscript entitled "Reproducibility of research during COVID-19: examining the case of population density and the basic reproductive rate from the perspective of spatial analysis" in its current form for publication in Geographical Analysis. The comments of the reviewer who reviewed your manuscript are included at the foot of this letter.

Please note although the manuscript is accepted the files will now be checked to ensure that everything is ready for publication, and you may be contacted if final versions of files for publication are required.

Your article cannot be published until the publisher has received the appropriate signed license agreement. Within the next few days the corresponding author will receive an email from Wiley's Author Services system which will ask them to log in and will present them with the appropriate license for completion.

Thank you for your fine contribution. On behalf of Geographical Analysis, I look forward to your continued contributions to the Journal.

Sincerely,
Prof. Rachel Franklin
Editor, Geographical Analysis

Comments to the Author

I appreciate the author's thoughtful response. Many subtle text changes have greatly improved the tone of the article, which was my biggest concern.
